Annual School  
**Census Report**  
For Newly Merged  
Districts (NMDs)

**2020  
2021**

## Dedication

This Annual School Census 2020-21 Report is dedicated to DCMA Ms. Safia (Shaheed) of the District Lakki Marwat.

She embraced shahadat in Sub Division Bettani of DLakki Marwat when the monitoring team was attacked by miscreants. During this incident, another DCMA Mr. Atta-ur-Rehman also sustained heavy injuries.

Ms. Safia was born on 2<sup>nd</sup> July 1988 and joined EMA in 2015.

In recognition of her services she was awarded the presidential award of Sitara-e-Shuja'at for gallantry, which was received by her father.

It is also worth mentioning other heroes like DCMA Mr. Saddam Hussein of district Abbottabad and DCMA Mr. Shiraz Ahmad of district Mansehra who lost their lives while performing their duty.

## MESSAGE FROM SECRETARY

Successful education policies are shaped and strengthened by accurate, timely and reliable data, to improve localized governance practices, enhance accountability and ultimately improve the teaching and learning process in schools. Considering the importance of robust data collection, the Elementary & Secondary Education (E&SE) Department, Government of Khyber Pakhtunkhwa with support of Education Monitoring Authority prepares and publishes the Annual Statistical Report of Government Schools both for settled and Newly Merged Districts (NMDs) of Khyber Pakhtunkhwa on annual basis.

I appreciate the hard work of field staff of EMA who faced difficult field conditions, volatile security situations and covered challenging terrains during this time bound activity of Annual School Census in all the public schools of settled districts and NMDs throughout the province. E&SED encourages all stakeholders to review this report and provide useful feedback to further improve this report in future.

## Foreword

Informed decision-making is crucial in the development process because it ensures the identification and management of risks and realization of intended benefits. Informed decision-making is, however, heavily dependent upon data for analysis of potential and new interventions. In a modern technological era, educational development has become a function of speed. Those who keep pace with emerging trends in education can better prepare their young generation for the challenges of the future. To overcome the challenges, educational leaders use data extensively in decision-making, setting and prioritizing goals, and monitoring progress. Statistics on a number of schools, students, teachers, available educational resources, male and female education, etc., are necessary for education planning and policymaking. Statistics regarding teacher-pupil ratio, number of students in each class, number of books issued to the students, Gender-Parity Index (GPI), etc., are of great significance in educational planning and reforms initiatives. Shortcomings of the education system are known from the data relating to absenteeism among teachers and students, missing facilities, and examination results of the students. An Educational plan should be based on a precise diagnosis if it is to be effective. An accurate diagnosis of the education system is possible with the help of timely transparent data as well as sound statistical analysis. Over the years, Education Monitoring Authority (EMA) has proved itself as a significant data-generating body with an analytical system, which lends the most credible support to educational planning in Khyber Pakhtunkhwa in particular and among national level educationists, researchers, and NGO/INGOs in general. Data generated by EMA and its Statistical Reports are crucial sources in policy formulation, planning, implementation, and monitoring.

The EMA was established in 2014 as a project of the Elementary and Secondary Education Department to generate, maintain and analyze vital education statistics to bring greater accountability to the education sector and boost reforms initiatives based on informed decision-making. Since its inception, EMA has enjoyed undisputed public acclaim besides winning the trust of the provincial government, development partners, and educationists at the national and international levels. It has its presence in every district and its monitors visit every school of the province right from Peshawar up to the towering peaks of Naran, Broghul and traverse the risky areas of NMDs. Education managers benefit from regular, reliable, and robust EMA data for planning future projects according to the needs of the masses. Planning and Monitoring wings of E&SE, educational research institutes, universities, NGOs/INGOs, and partners in educational development have been extensively using EMA data. EMA has been working consistently to meet the demand for improved decision-making based on actual data to shape up policies and it has established the credibility of its record in a short span of time. EMA is striving hard to maintain and further improve its data quality by introducing constant checks, upgrading its technology and monitoring system and continuously providing incentivized training/capacity building and exposure opportunities to its employees, especially DCMAs.

This 29th Annual Statistical Report (ASC) 2020-21 of Public Sector Schools in the province comprises of education data pertaining to all levels of public schools ranging from primary, middle, high to higher secondary level and includes statistics, analysis, and information on all key indicators leading to improved performance for all public sector schools of Khyber Pakhtunkhwa.

The ASC Report 2020-21 is the outcome of the annual school census activity conducted by EMA in November-December 2020 through actual visits of the school and on-site physical verification, which guarantees a high degree of data accuracy. A comprehensive survey questionnaire developed since the inception of EMA was extensively revised before starting ASC activity in consultation with all stakeholders to ensure that each emerging aspect is accounted for. This vast level of consultation before the conduct of ASC ensures the quality, ownership, and

credibility of the EMA data. The publication contains information on crucial variables in the field of education statistics, including the number of schools, classrooms, teachers, enrolments, disable students, student-teacher ratios, gender ratio, details of infrastructures, and missing facilities in all public sector schools of NMDs. Results are encouraging despite the prevalence of the Covid-19 pandemic. The data will be highly useful for education planners, researchers and students. We hope that being a credible and authoritative source will lead to inform policy formulation at various levels, particularly in Khyber Pakhtunkhwa, and play a vital role in boosting reforms initiatives of the education sector.

This report is the outcome of the hard work of the EMA team. I am thankful to the entire EMA Team at HQ and in the field and appreciate their efforts, especially IT staff, DMOs, and DCMAAs who made this report possible during these tough times of the Covid-19 pandemic. EMA encourages all stakeholders to review this report provide useful feedback for further improvement in the future.
