## MESSAGE FROM SECRETARY

Tangible improvement in educational system of KP by identifying ongoing challenges and opportunities is the ultimate outcome of current and reliable data provided by EMA. E&SE Department leveraged to frame policies, improve localized governance practices and enhance accountability which delivers good quality teaching and learning opportunities across the province. Considering the importance of robust data collection, the Elementary & Secondary Education (E&SE) Department, Government of Khyber Pakhtunkhwa with support of Education Monitoring Authority prepares and publishes the Annual Statistical Report of Government Schools both for settled and newly merged districts of Khyber Pakhtunkhwa on annual basis.

The efforts of all the stakeholders involved in compilation of annual school census report are commendable including field staff of EMA, IT wing and Head office staff. This report is holistic in nature and presents both achievements and challenges simultaneously on the current educational landscape of Khyber Pakhtunkhwa. Despite the fact of volatile condition in the field, hard terrains and a time bound activity commitment and dedication has been shown to bring a real time data before the public and policy makers to bring the educational level of KP at par with the international standards through transformation. E&SED encourages all stakeholders to review this report and provide useful feedback to further improve this report in future.

## FOREWORD

Dear education stakeholders and members of the public

In consonance with the Constitution of Islamic Republic of Pakistan, 1973 and International SDGs, EMA is playing its vital role to preserve the right of a child to education by its real time data and monitoring system. 2023 Annual School Census is the detailed enumeration of HR, infrastructure, water and sanitation requisite for conducive environment for learning.

I, the Director General of the Education Monitoring Authority, would like to share with you the annual school census report of Khyber Pakhtunkhwa, Pakistan. This report provides valuable insights into the state of education in our region and highlights key areas of improvement and progress.

Firstly, I would like to commend all the stakeholders involved in conducting this comprehensive census, including the education department, school administrators, teachers, and data collectors. Their hard work and dedication have allowed us to gather accurate and reliable data on the current educational landscape in Khyber Pakhtunkhwa.

The annual school census report paints a picture of both achievements and challenges in the education sector. We are pleased to report that the total number of educational institutions has increased over the past year, indicating a positive trend towards the expansion of educational opportunities for our children. This reflects the collective efforts and investments made to promote education at all levels.

Furthermore, the report sheds light on the distribution of schools across different regions of Khyber Pakhtunkhwa. While there has been progress in establishing schools in remote and underprivileged areas, we acknowledge that more work needs to be done to ensure equal access to education for all. We are committed to addressing this disparity and bridging the educational divide that exists within our province.

The census report also highlights the enrollment trends in Khyber Pakhtunkhwa. We are encouraged to see an increase in student enrollments, particularly at the primary and secondary levels. This indicates a growing awareness and importance placed on education by families and communities. However, we must not lose sight of the children who remain out of school. Our mission is to reach every child and provide them with quality education opportunities.

In addition to enrollment, the report provides data on the availability of facilities and resources in schools, including boundary walls, classrooms, libraries, laboratories, and access to clean drinking water and sanitation facilities. While progress has been made in this regard, there are still areas where improvement is needed. We will be working closely with relevant authorities to address these infrastructure gaps and ensure a conducive learning environment for students.

It is imperative to view this annual schools census report as a roadmap for progress rather than a mere collection of statistics. We urge all education stakeholders to analyze the findings, identify areas of concern, and collaborate on strategies and interventions to drive positive change in our education system.

We are confident that with collective efforts and a shared commitment to education, we can transform Khyber Pakhtunkhwa into a hub of quality education and provide our children with the knowledge and skills they need to thrive in the modern world.

Thank you for your ongoing support and dedication to the cause of education in Khyber Pakhtunkhwa.

Sincerely,

**Directors General  
Education Monitoring Authority**
